PROFILE

I am Dattatrey Joshi, an IT Engineering graduate from Gujarat University with experience in mobile and web development. Skilled in Flutter, React Native, React.js, MongoDB, Express, Node.js I build responsive, user-friendly applications. Passionate about clean UI/UX and continuous learning, I create user-friendly and scalable solutions. I am a fast learner, a team player, and constantly eager to explore new tools and frameworks to stay ahead in the tech industry.

WORK EXPERIENCE

- Worked as a Mobile App Developer at Pyonix Technology.　　　　May2024-present

Website(MERN Stack)　　　　Jan2024-Jun2024
Gujarat Tourism

- Developed a tourism web app using the MERN stack where users can explore tourist places across Gujarat, view detailed history, location, and add places to their "visit list" for future travel planning.
- Also built as a MERN stack basic project to demonstrate static web structure, UI cloning, and foundational full-stack integration

Mobile App(ReactNative)　　　　Jul2024-Dec2024
TechProduct(ECommerce)

- Built a mobile eCommerce app for browsing and purchasing computer accessories like keyboards, mice, cables, hard drives, and more. Features include product search, wishlist, add to cart, secure checkout, and a modern UI with smooth user experience for seamless shopping.
- Also created basic apps and designed attractive, user-friendly UIs.

Mobile App(Flutter)　　　　Jan2025-Jun2025
Depperz(ECommerce)

- Built a modern eCommerce mobile app using Flutter where users can browse and purchase clothing, keychains, kadas, graphic t-shirts, and accessories. Features include user authentication (sign in/sign up), add to cart, wishlist, and a smooth, visually appealing UI for a seamless shopping experience.
